

Dear Friends:

Our dental team appreciates the opportunity to provide you and your family with your dental care. I want to say thank you for allowing us to be your dentist.

We are doing all we know to help make your dental health care simpler, easier, and more affordable.

What are we doing?

1) We provide no out-of-pocket expense for your dental examination to each of our patients, kids, and adults. Yes, this will save each of you \$82 and will allow you to have an evaluation of your dental health status at no out-of-pocket cost. (This means, if you do not have dental insurance, the exam is free, if you have dental insurance, we will file it, and whatever it pays, we will accept it as full payment.) We want these comprehensive exams to be an integral part of your dental health care planning.

2) We are discounting a portion of all kids' in school (i.e., Elementary, Jr. High, High School, and four-year college) restorative dentistry. We appreciate families, and this is a way to make your children's dentistry more affordable.

3) We are one of the first offices in the state of Louisiana to have 100% electronic HIPPA Certification. We worked four months to become electronically compliant!

Dr. Scott continues to learn and study to provide state-of-the-art Dentistry. He continues to be recognized in the Top Dentists in America. He has received a second Lifetime Learning and Service Award from the Academy of General Dentistry. The highest honor in Dentistry is to be elected into the American College of Dentists. He has been. The next most prestigious is to be invited into the Pierre Fauchard Academy of Dentistry. He has been. He has also been inducted into the International Colleges of Dentists. The three most prestigious honors any dentist can receive, Dr. Scott has received.

We so appreciate the great reviews of our office; we appreciate it!

2020 and 2021 have been so difficult with Covid. We have added UV lights to our air handlers to kill bacteria and viruses in the air, along with HEPPA filters in each treatment room and front business office that filters the air every 7 minutes. The extraoral suction for more collection of the aerosols in each treatment room is a 6 stage HEPPA filter with a two-stage UV light. We want you to know we are doing state-of-the-art air cleaning for dental offices for your health protection.

We are accepting new dental patients at our dental office. As families move to new communities, we are always happy to add your friends, family members, including your children and grandchildren, into our dental family. If you can refer someone to our office, please do so and let your friends know we are accepting new patients. We are still working to provide the very best in dental care to our family of patients at the most reasonable fee possible.

Dr. Scott has worked a lifetime to learn how and be able to provide care way beyond the ordinary dental experience. We are trying to help our community by helping our patients with their dental care being affordable. Call us at 325-4600 and set up your appointment. Also refer a friend in our direction, you can feel confident in our ability to provide them with phenomenal care! We thank you so much for letting us be your dentist.

For Better Dentistry,

L. King Scott DDS, MAGD

Nita, Karla, Julie, Sadie, Cathy, Darlene, and Jennifer

P.S. I strive to live by this great statement of living excellently:

"A master in the art of living draws no sharp distinction between his work and his play; his labor and his leisure; his mind and his body; his education and his recreation. He hardly knows which is which. He simply pursues his vision of excellence through whatever he is doing, and leaves others to determine whether he is working or playing. To himself, he always appears to be doing both."
