

Dear Friends:

Our dental team appreciates the opportunity to provide you and your family your dental care. I want to say thank you for allowing us to be your dentist.

We are doing all we know to help make your dental health care simpler, easier, and more affordable.

What are we doing?

1) We provide no out of pocket expense for your dental examination to each of our patients, kids and adults. Yes, this will save each of you \$67 and will give you an opportunity to have an evaluation of your dental health status at no out of pocket cost. (This means, if you do not have dental insurance, the exam is free, if you have dental insurance we will file it and whatever it pays we will accept as full payment.) We want these comprehensive exams to be an integral part of your dental health care planning.

2) We are discounting a portion of all kids' in school (i.e. elementary, Jr. High, high school and 4 year college) restorative dentistry. We appreciate families and this is a way to makes your children's dentistry more affordable.

3) We are discounting all crowns \$133.00. The quality of the type crowns insurance companies reimburse are so below the quality of the crown work we have provided over my career. We are providing a crown that is of far superior quality than the type of crown the insurance reimburses and we will not provide the insurance level crown, therefore the discount.

Dr. Scott continues to learn and study so that he can provide state of the art Dentistry. He continues to be recognized in the Top Dentists in America. He is on the road to receiving another Lifetime Learning and Service Award from the Academy of General Dentistry. The highest honor in Dentistry is to be elected into the American College of Dentists. He has been. Next most prestigious is to be invited into the Pierre Fauchard Academy of Dentistry. He has been. In 2015, he was inducted into the International Colleges of Dentists. The three most prestigious honors any dentist can receive, Dr. Scott has now received.

If you go to www.google.com or www.yelp.com and give a great written review of our office, we would so appreciate it! We even have "How To" steps at the front desk of our office to walk you through the process to get to the correct site.

2014 was terrific along with 2015 as Dr. Scott has been President Elect and President of the Louisiana Dental Association. Even through all the difficulties of the tree falling into the office on Monday October 13, 2014, we are resilient and progressed forward through the hardship. Our goal is still to provide excellent dental care to all our family of patients. Now in 2016, we have completed the remodeling of the office. It looks fabulous with just a few items to be completed.

We want you to know we are accepting new dental patients at our dental office. As families move to new communities, we are always happy to add your friends, family members including your children and grandchildren into our dental family. If you have an opportunity to refer someone to our office please do so and also let your friends know we are accepting new patients. I still am working to provide the very best in dental care to our family of patients at the most reasonable fee possible.

We thank you so much for letting us be your dentist. Dr. Scott has worked a lifetime to learn how and be able to provide care way beyond the ordinary dental experience. We are trying to help our community by helping our patients with their dental care being affordable. Call us at 325-4600 and set up your appointment. Also refer a friend in our direction, you can feel confident in our ability to provide them with phenomenal care!

For Better Dentistry,

L. King Scott DDS, MAGD

Dot, Debra, Nita, Karla, Dakota

P.S. I strive to live by this great statement of living excellently:

“A master in the art of living draws no sharp distinction between his work and his play; his labor and his leisure; his mind and his body; his education and his recreation. He hardly knows which is which. He simply pursues his vision of excellence through whatever he is doing, and leaves others to determine whether he is working or playing. To himself, he always appears to be doing both.”
